

Some Testimonials from users of SMITECH Gaura Walk Hydrogen Water Generators

Testimonial No 1:

I was introduced to Hydrogen Water (H₂Water) by SMITECH (ASIA) PTE LTD at a time when I was trying to improve my health state so that I can enjoy my retirement years

After learning about the properties of this type of water, I started on a daily routine of drinking hydrogen water using SMITECH Gaura Walk Hydrogen Water Generator of 300ml. I soon realized that it is a very hassle free process to prepare and drink 300 ml of H₂Water on hourly basis.

During my weekly trekking up the Bukit Timah Hill, I find that I can now breath more easily and don't run out of breath quickly like before. My fellow trekkers also noticed and commented on this change in me.

I also noticed that my skin texture have improved without the need to use cosmetic, as previously I started to worry about dry and rough "old folks" skin.

I also enjoy my daily brisk walk and hitting my 10,000 steps each time is never a problem. Some days I did more than 20,000 steps and it was never a big problem though sometimes it can be tiring. I just listen to my body, rest and in a short time I am back in good state of health. My blood pressure and oxygen level are at its best as it can be.

I have also improved my BMI score. I found out in my recent medical check up that I have lost 3kg in weight after drinking H₂Water for 3 months. I look forward to be able to at least maintain my health state through regularly drinking H₂Water so that I can enjoy a good quality of life.

Experience it yourself and enjoy your retirement years with little health problems.

Paul Ang, 60, Fire Safety Trainer

Testimonial No 2:

Molecular Hydrogen rich water therapy improved my health issues.

I have a few health issues, such as Joints Pains, Rheumatoid Arthritis and Blood Pressure. Before, I have medicine for high blood pressure, pain and therapy with no result.

I drink at least 2 litres of Molecular Hydrogen Rich Water daily from SMITECH Gaura Walk Hydrogen Water Generator for the last 6 months and my present health issues have improved tremendously.

Molecular Hydrogen rich water therapy is good for my acute and chronic clinical conditions.
